

THE NUMBERS

Here is a glimpse of Embry-Riddle through the numbers.

NINETY YEARS

Ninety years of innovation has earned Embry-Riddle a solid reputation as the world's leader in aviation and aerospace education. Our long and prestigious history was built on a bold vision, tolerance for risk and responsiveness to a dynamic industry — all of which contributed to the strong position we enjoy today. Barnstormer John Paul Riddle and businessman T. Higbee Embry laid the foundation for that vision, which has produced more than 125,000 alumni that drive innovation across the aerospace industry and beyond. As we salute the visionaries of our past I ask that you join us in committing to sustaining the university of tomorrow.

1ST

COLLEGE OF SECURITY & INTELLIGENCE

Embry-Riddle's College of Security and Intelligence represents the first comprehensive degree-granting college of its kind in the U.S.

1ST

OF ITS KIND

Embry-Riddle offers the world's first Commercial Space Operations degree program, and the first Space Physics degree program in the U.S.

CHOOSE YOUR SETTING

Embry-Riddle's residential campuses in Prescott, Arizona, and Daytona Beach, Florida, provide education in a traditional classroom setting to undergraduate and graduate students engaged in high-level, project-based academic pursuits. Our small class sizes promote collaboration among faculty and students who are highly focused and work hard to achieve their academic and career goals.

Known as Embry-Riddle's western location, the Prescott Campus is in a beautiful mountain community near the Grand Canyon and Arizona's capital city of Phoenix. The Daytona Beach Campus is situated across the country on the eastern coast of the United States, near the Atlantic Ocean and the city of Orlando.

No.1

Embry-Riddle Aeronautical University is known as the No. 1 Aviation and Aerospace University in the World.

STUDY IN SINGAPORE

Singapore is a cosmopolitan country that attracts many residents from abroad. The country embraces a unique blend of cultures, lifestyles and religions that contributes to an outstanding quality of life. A thriving arts, culture and entertainment scene offers something for everyone. Singapore's warm and sunny climate is perfect for year-round sports and outdoor activities.

Embry-Riddle Asia offers students an experience beyond the classroom. Join a club or get involved in student government. You'll also have the opportunity to interact with other Embry-Riddle students attending our residential campuses in the United States. With a fast growing student body we realise the importance of life both inside and outside of the classroom.

We're actively working to create some of the same student opportunities students attending our residential campuses in the United States enjoy.

From clubs and organisations ranging from special interest to athletics along with student trips and community outreach we're building a vibrant student life environment for our growing diverse student body.
